## IM GROUP

Rebranded in Italy in 2021, IM GROUP (formerly Inkmaker Group) is a global technology leader headquartered in Italy—focused on reliability. It is the holding brand of: Inkmaker, Rexson, Vale-tech, Swesa, Teko, Tecnopails and IEC+.

With its combined strength the group offers advanced integrated-engineering solutions—within the industries of paint, coatings, ink, speciality-chemicals, adhesives, corrugated packaging, flexography, pharmaceutical, food, cosmetic, textiles and more—from design and manufacturing through to complete engineering studies and turnkey solutions for:

- Customised plant engineering and software design
- Highly accurate automated dispensing
- Process equipment from bulk handling to filling lines
- POS equipment
- And other related services

IM GROUP conducts this through the use of:

- Cloud connectivity
- Industry 4.0
- Increased safety and reduction of environmental impact

The group's systems, manufactured in 3 continents are powered by the group's state-of-the art proprietary software, to guarantee highly accurate colours consistently, precisely and instantly. IM GROUP operates in over 15 countries throughout 5 continents.

On 18 June, 2021, the group was recognised as one of the "Top 10 chemical tech solution providers in Europe 2021" by Manufacturing Technology Insights, which was announced in over 30 of the world's most prominent industry media.

## IM GROUP Structure & Market-Sector Distribution

## Quality Assurance

Our organisation is certified and holds several patents.

## SUSTAINABILITY & CSR

IM GROUP is committed to ensuring sustainable ethical principles and a safe work environment.

We are partnering international consultants, to further our Corporate Social Responsibility (CSR) and sustainability practices.

The project defines a plan outlining economic, social and environmental objectives, with corrective actions to be taken, in line with our company strategy.

Our aim is to reduce the current resources we use, and the waste that we create, to conserve resources and help reduce environmental pollution.

### About Teko

Established in 2013, Teko Tinting and Engineering is a privately-owned solutions partner specialised in; Point-of-Sale systems and integrated solutions combining engineering with chemistry. It is located in Malaysia and Indonesia, Teko supports all the IM GROUP brands through its network of regional sales and support partners.

[teko.asia](http://teko.asia)

### About Tecnopails

Established as LAVELLI e C in 1974, Tecnopails, is a privately owned and independent Italian manufacturer of customised modular automated filling, sealing, labelling and palletising machinery—for pails, buckets and cans—that is widely used in the ink, paint and coatings industry, as well as the industries of food and speciality chemicals. Tecnopails' machines are explosion risk (ATEX) certified. It is located in Piacenza in Emilia Romagna, Northern Italy and has a global network of regional and international clients and support partners.

[tecnopails.it](http://tecnopails.it)

### About IEC+

Established in 2013, IEC+ srl is a mechanical engineering company, specialised in the design and manufacturing of process equipment for dispersion, grinding, mixing, and filtration as well as complete engineering studies and turnkey solutions. It is located in Travesetolo, in Parma, Northern Italy and has a global network of regional and international clients and support partners.
