IM GROUP

Rebranded in Italy in 2021, IM GROUP (formerly Inkmaker Group) is a global technology leader headquartered in Italy, focused on reliability, innovation and advanced engineering solutions. It serves as the holding brand for Inkmaker, Rexson, Vale-tech, Swesa, Teko, Tecnopails and IEC+.

Bringing together the expertise of its brands, IM GROUP develops integrated technology solutions across industries including paint, coatings, inks, speciality chemicals, adhesives, corrugated packaging, flexography, pharmaceuticals, food, cosmetics and textiles. Its scope spans design, manufacturing, engineering studies and turnkey installations, offering:

- Customised plant engineering and software design
- Highly accurate automated dispensing
- Process equipment from bulk handling to filling lines
- POS equipment
- Other related services

Technology & Operations

IM GROUP leverages advanced technologies to deliver its solutions efficiently, safely and sustainably:

- Cloud connectivity for seamless integration
- Industry 4.0-enabled automation and intelligence
- Enhanced safety and reduced environmental impact

Manufactured across three continents, the group's systems are powered by proprietary software, ensuring consistent, precise colour accuracy worldwide. IM GROUP operates in over fifteen countries across five continents.

On 18 June 2021, IM GROUP was recognised as one of the "Top 10 chemical tech solution providers in Europe 2021" by Manufacturing Technology Insights, with coverage in over 30 leading international industry media outlets.

IM GROUP Market-Sector Distribution

IM GROUP's Structure and Expertise

IM GROUP is organised into three core business units:

1. Dispensing and Tinting
2. Filling
3. Dispensing, Grinding & Mixing

This structure enables the group to deliver fully integrated solutions across paint, coatings, inks, speciality chemicals, adhesives, corrugated packaging, flexography, pharmaceuticals, food, cosmetics, textiles, and more.

Quality Assurance

IM GROUP operates under internationally recognised certifications and holds multiple patents, demonstrating its commitment to technological innovation and quality.
